# FOUNDER'S MESSAGE

Dear Friends.

When I first envisioned this organization, it was born from a simple yet powerful belief - that every individual, regardless of their background, deserves the opportunity to live with dignity, hope, and purpose. Our journey has not been without challenges, but every obstacle has strengthened our resolve.

We are not just an NGO - we are a family of dreamers, doers, and believers working hand in hand with communities to create lasting impact.

I am reaching out to share the mission of Surabi Charitable Trust, an organization dedicated to the development of underprivileged children and women empowerment, focusing on health, nutrition, and education. We firmly believe that the Right to Education and the Right to Health are fundamental rights that should be accessible to everyone, regardless of their social status.

At Surabi Charitable Trust, we strive to ensure that those who have been deprived of these rights for any reason are given an opportunity to reclaim them. Our approach goes beyond mere education; we aim to empower individuals with the skills and opportunities needed to access life's basic necessities. By doing so, we enable them to earn the respect and dignity they deserve, not just for themselves, but for future generations as well.

We are committed to making a meaningful difference in the lives of those we serve, and your support can help us achieve this goal.

Thank you for taking the time to consider our message. Together we can empower communities and change lives for the better.

## **UP COMING PROJECT - BALAJYOTHI - Triumph Beyond Tomorrow**

The 10th and 12th standards are crucial for a student's future, as they set the foundation for their educational and career paths. The 10th standard marks are often the first nationalized external exam for school-goers, marking the onset of adulthood and the beginning of serious academic responsibilities. The 12th standard marks are more complex and play a significant role in determining a student's eligibility for higher education and professional courses. These standards are not only important for academic success but also for shaping a student's career trajectory and future opportunities.
